As an aid in interpreting the provisions of Section 305, the Mayor and Town Council hereby states in summary the purposes for which the various zoning districts are established, and their intentions regarding the types of uses which should be permitted to further the objectives of the adopted Town Comprehensive Plan:
 - 1. Suburban Residential District - This district provides for suburban-type residential subdivision development in areas of similar existing development and where natural features of the land and capacities of utility, street or other service systems may require this type of development. Development is thus permitted at moderate density.
 - 2. Town Residential Districts - This district provides for the continuation of the Town's core area which generally contains a mixture of residential, commercial and public service uses.

3. Neighborhood Commercial District - This district provides for the establishment of uses intended primarily to serve the daily and convenience shopping and personal service needs of residents in sub-sections of the Town.
4. Traditional Neighborhood Design - This district provides for more flexible standards in the development of residential single-family, multi-family and neighborhood commercial in a pattern similar to the existing town. Lots and yards may be smaller than otherwise required under regulations applicable to the underlying zoning district (see Section 509).

ARTICLE 7: SIGN REGULATIONS

700 Purpose

This article recognizes that signs perform an important function by identifying residences and businesses and that some control of signs is necessary to promote the community's safety and general welfare by lessening safety hazards to pedestrian and vehicular traffic, by conserving property values, by preventing unsightly and detrimental development which has a blighting influence upon residential, business and industrial uses, by preventing signs from reaching such excessive size that they obscure one another to the detriment of all concerned, and by securing certain fundamentals of design to protect the scenic qualities which form an essential basis for part of the Town's economic well-being.

701 Applicability and Exemptions

- A. No sign shall be erected, hung, placed or painted in any district except as provided in this Ordinance.
- B. For the purpose of this Ordinance, any of the following words relating to signs are intended to include any tense or to read with the prefix "re-":
affix, alter, attach, display, erect, hang, move, paint, paper, paste, place, post, repair.
- C. No sign erected before the enactment of these regulations shall be altered in any respect or moved, except in compliance with the provisions of this Ordinance, and except that any sign may be removed completely.
- D. Nothing in this Ordinance shall prevent the proper erection and maintenance of official signs by federal, state, county or municipal agencies for traffic control, directional or informational purposes, or by a private person or agency solely for the protection of the public health, safety and welfare.
- E. Where the flag, name, emblem, or insignia of a nation, governmental unit, non-profit educational, charitable, or religious group is used as a sign within the meaning of this Ordinance, such use shall comply with the provisions hereof, except that no fee shall be charged for issuing a permit for such use.

702 Permit Requirements

- A. No on-premises sign over six square feet in area and no off-premises sign (except governmental sign) of any size shall be erected, affixed, painted, hung, or otherwise displayed, altered or repaired, unless a permit therefor has been issued.

- B. The area of a sign painted upon or applied to a building shall be construed to include all lettering, wording, and accompanying designs or symbols together with any backing associated with the sign.
- C. Where the sign consists of individual letters or symbols attached to or painted on a surface, building, wall or window, the area shall be considered to be that of the smallest rectangle or other shape which encompasses all of the letters and symbols.
- D. In computing square-foot area of a double-faced sign, only one side shall be considered, provided both faces are identical.

704 General Sign Regulations

- A. No sign shall project more than three feet above the roof nor more than 14 inches out from the wall to which it is attached. Signs not exceeding four square feet in area may be placed perpendicular to a building face it attached to and below a canopy projection from said building.
- B. Signs shall not exceed the height limit permitted for structures in the zoning district in which they are located, except that the Board of Appeals may authorize a special exception to such use provided that:

1. The exception shall be granted only for on-premises signs accessory to retail commercial uses such as gasoline service stations, restaurants, motels and the like offering services intended primarily or substantially for highway travelers and other transient users ; and
 2. Said uses are or will be located at or near an interchange of a limited access highway; and
 3. Such special exception sign shall contain only the name or the name and symbol or emblem of the use to which it is accessory; and
 4. The area of such special exception sign shall not exceed one hundred (100) square feet; and
 5. Not more than one [1] structure for such sign shall be permitted on a single property, but said structure may be authorized to contain the sign of more than one permitted use if such use is on the same or contiguous property.
- C. All signs except temporary signs shall be constructed of durable material and kept in good condition and repair. Whenever a sign becomes structurally unsafe or endangers the safety of a building or premises or the public safety, in the opinion of the Zoning Administrator, he shall order that such sign be made safe or removed. Such order shall be complied with within five days of receipt thereof by the person, firm or corporation owning or using the sign or the owner of the building or premises on which such unsafe sign is affixed or erected.

The work of bringing such sign into conformity with such requirements shall constitute either repair, alteration or relocation, and therefore, shall require the owner of such sign to obtain a permit.

- B. Meetings -- Meetings of the Board shall be held at the call of the chairman and at such other times as the Board may determine. The Board shall notify the Mayor and Town Council, Planning Commission and Zoning Administrator of all decisions and resolutions.

1003 Who May Appeal to the Board

Appeals to the Board may be taken by any person aggrieved or by any officer, department, board or bureau of the Town affected by any decisions of the Zoning Administrator.

1004 Powers and Duties - Interpretation

Upon appeal from a decision by the Zoning Administrator, the Board shall decide any question:

- A. Where it is alleged there is error in any order, requirement, decision or determination, including any order requiring an alleged violation to stop, cease, and desist, made by the Zoning Administrator in the enforcement of this Ordinance, or
- B. Involving the interpretation of any provisions of this Ordinance, including determination of the exact location of any district boundary if there is uncertainty with respect thereto.

1005 Powers and Duties - Variances

- A. Upon appeal from a decision by the Zoning Administrator, the Board shall have the power to vary or adapt the strict application of any of the requirements of this Ordinance in the case of exceptionally irregular, narrow, shallow or steep lots, or other exceptional physical conditions whereby such strict applications would result in practical difficulty and unnecessary hardship depriving the owner of the reasonable use of land or building involved, but in no other case.
- B. In general, the power to authorize a variance from the terms of this Ordinance shall be sparingly exercised and only under peculiar and exceptional circumstances.
- C. No variance in the strict application of the provisions of this Ordinance shall be granted by the Board unless the Board finds that the following requirements and standards are satisfied.

The appellant must show that the variance will not be contrary to the public interest and that practical difficulty and unnecessary hardship will result if it is not granted. In particular, the appellant shall establish and substantiate his appeal to show that the appeal for the variance is in conformance with the requirements and standards listed below:

- 1. That the granting of the variance shall be in harmony with the general purpose and intent of this Ordinance, and shall not be

insurious to the neighborhood or otherwise detrimental to the public welfare.

2. That the granting of the variance will not permit the establishment within a District of any use which is not permitted in that District.
 3. That special circumstances or conditions, fully described in the findings, apply to the land or buildings for which the variance is sought, which circumstances or conditions are such that strict application of the provisions of this Ordinance would deprive the applicant of the reasonable use of such land or building or create unnecessary hardship. If the hardship is general, that is, shared generally by land or buildings in the neighborhood, relief shall be properly obtained only by legislative action or by court review of an attack on the validity of the ordinance.
 4. That the granting of the variance is necessary for the reasonable use of the land or building and that the variance as granted by the Board is the minimum variance that will accomplish this purpose. It is not sufficient proof of hardship to show that greater profit would result if the variance were awarded. Furthermore, hardship complained of cannot be self-created; it cannot be claimed by one who purchases with or without the knowledge of restrictions; it must result from the application of the Ordinance; it must be suffered directly by the property in question; and evidence of variance granted under similar circumstances shall not be considered.
- D. The Board may prescribe any safeguard that it deems necessary to secure substantially the objectives of the regulation or provisions to which variance applies.

1006 Powers and Duties - Special Exceptions

- A. The Board shall have the power to approve special exceptions for any of the uses for which this Ordinance requires obtaining of such exceptions and for no other use or purpose. The Board shall not grant a special exception except in conformance with the conditions and standards of this Ordinance.
- B. In granting a special exception, the Board shall make findings of fact consistent with the provisions of this Ordinance. The Board shall grant a special exception only if it finds adequate evidence that any proposed use submitted for a special exception will meet all of the following general requirements as well as any specific requirements and standards listed for the proposed use. The Board shall, among other things, require that any proposed use and location be:

1. In accord with the Town's Comprehensive Development Plan and consistent with the spirit, purposes, and intent of this Ordinance.
 2. Suitable for the property in question, and designed to be in harmony with and appropriate in appearance with the existing or intended character of the general vicinity.
 3. Suitable in terms of effects on street traffic and safety with adequate access arrangements to protect streets from undue congestion and hazard.
- C. The Board may impose whatever conditions regarding layout, circulation and performance it deems necessary to insure that any proposed development will secure substantially the objectives of this Ordinance. The Board shall consider recommendations of the Planning Commission, if any, prior to rendering a decision.

Applications for special exceptions shall include a zoning permit application with all information required therein and a statement with any supporting data regarding the merits of the proposed use at the proposed location and how the proposal complies with the general and specific requirements of this Ordinance.

1008 Notice of Hearings

Upon transmittal to the Board of an application filed with the Zoning Administrator for a special exception, variance or appeal from alleged error of the Zoning Administrator, the Board shall fix a reasonable time (not less than 30 days nor more than 45 days) from the transmittal date for a public hearing thereon and give notice as follows:

- A. At least 15 days prior to the date fixed for public hearing, publish a notice containing the name of the applicant or appellant; the date, time, and place fixed for the hearing; and a brief statement of the special exception sought by the applicant, or the error alleged by the appellant, or of the variance or other question which is subject to appeal, in at least one newspaper of general circulation within the Town.

The Board shall also request an advisory opinion from the Planning Commission on any application for a variance or interpretation.

1010 Decisions by the Board

- A. Decisions by the Board on special exception, variances and interpretation appeals shall be rendered within 10 calendar days of the hearing on said exception, variance or interpretation, unless a later date is mutually agreed upon by the Board and applicant.
- B. In exercising its powers concerning interpretation appeals, the Board may, in conformity with lay and the provisions of this Ordinance, reverse or affirm, wholly or in part, or may modify the order, requirement, decision or determination appealed from and make such order, requirement, decision, or determination as ought to be made, and to that end shall have all the powers of the officer from whom the appeal is taken.
- C. In making its decisions pursuant to the authority conferred by this Ordinance, the Board shall study the specific property involved, as well as the neighborhood, and consider all testimony and data submitted, and shall hear any person desiring to speak for or against the issuance of the permit. However, the application for a permit shall not be approved where the Board finds the proposed building, addition, extension of building or use, sign, use or change of use would adversely affect the public health, safety, security, morals, or general welfare, or would result in dangerous traffic conditions, or would jeopardize the lives or property of people living in the neighborhood. In deciding such matters, the Board may give consideration, among other things, to the following:
 - 1. The orderly growth of a community, as expressed in the Comprehensive Development Plan or otherwise.
 - 2. The number of people residing or working in the immediate area concerned.
 - 3. Traffic conditions and facilities.
 - 4. The effects of such use upon the peaceful enjoyment of people in their homes.
 - 5. The conservation of property values.
 - 6. The effect of odors, dust, gas, smoke, fumes, vibrations, glare and noise upon the use of surrounding property values.

No decision of the Board permitting the use of a building or land shall be valid for a period longer than one year, unless such use is established within said period; except that, where such use is dependent upon the erection or alteration of a building, such order shall continue in force and effect if a zoning permit for such erection or alteration is obtained within said period, and such erection or alteration proceeds to completion in accordance with the terms of the decision.

Any person or persons, jointly or severally, aggrieved by any decision of the Board, or any taxpayer of the Town or any officer, department, board or bureau of the Town may appeal the same to the Circuit Court of Washington County.
