Mr. Levey noted the continued desire to change the rate structure and increase the rates for water customers. He is investigating the procedure that needs to be followed.

Mr. Levey noted that the most recent water usage report showed that losses continue to be at an acceptable level.

Mr. Levey noted three hydrants that had leaks that were found during the hydrant flushing. He said that the Boonsboro staff would be repairing them.

Mr. Bishop said that the meters that were poorly located and the meters not operating properly had recently been replaced. He said that the replacements have been paused pending the meter reading period and would resume after that.
