Mr. Sweeney spoke about the advanced metering pilot program Boonsboro is doing with 20 meters. The meters will pick up sound and detect leaks. Ms. Riner said the reason they are only doing 20 meters close together in the pilot study is that, in order to show how the system listens for leaks, the meters have to be close together. The meters can also detect temperature. Mr. Sweeney will reach out to the company and talk to them about a presentation.

Meeting adjourned at 7:44 pm.

Respectfully Submitted,

Teresa Pangle, Administrative Assistant
