- II. OLD BUSINESS: Chairperson Holloway reviewed the Capital Projects listed on the Agenda with the Board.
 - A. Capital Projects
 1. Crestview Bypass Project – The contract was awarded to HRI. The Pre-Construction meeting was on Thursday. The HRI surveyors are on Potomac Street - Shepherdstown Pike doing construction stakeouts for the Project. Route 34 - Potomac Street - Shepherdstown Pike - will not be closed at any point during the construction, but there will likely be flagging at certain points in the process. The entire project is expected to take 4 months, weather dependent. No work will be done on homeowners' properties. Those with properties adjacent to the project site were notified last fall.
 2. Reservoir Replacement – Both tanks were filled, tested, and passed. HRI took a break over the holidays but is back on site this week and is currently insulating the control room walls. The project is on track.
 3. Potomac Street Bottleneck – We have contracted Mid-Atlantic Utilities to perform test pitting to help determine exactly which parts of the line need replaced.
 4. Advanced Metering – Boonsboro moved forward with a pilot program offered by Fortiline Waterworks. They were provided 20 Kamstrup flow IQ meters for 120 days at no cost. The meters and software were installed this week and will be read for the first time next week. CUSI is now working on integration into the billing system.
 - B. GIS System progress- Town Manager Lisa Riner stated there was no update.
 - C. Status of DRAFT Consolidated Agreement – Town Manager Souders stated via email that the agreement is still with Boonsboro's attorney. No updates

- III. NEW Business:
 - A. Board Members reviewed proposed CIP Projects for upcoming year:
 1. Inflow & Infiltration – Boonsboro applied for grant funding to perform I&I and budgeted \$250k for the required match. If Boonsboro is approved for funding, they will receive it in the spring; if not, they will scale back the project to whatever can be accomplished with our \$250k.
 2. Safe Routes to School Sidewalk Improvements – Boonsboro is currently seeking bids for design of sidewalks leading to the school campus. Once the design is completed, they can apply for funding to do the construction.

3. Keedysville Bedrock Loop & Replacement – Town Manager Riner stated they are waiting on 50/50 matching grant funding. Hopefully they will be able to start in the Spring.

B. Review Water Rates – Chairperson Holloway reviewed the water rates for Keedysville and Boonsboro. Boonsboro Keedysville Water Service

Narrative of the Keedysville Cost-Sharing True-up for FY25

Keedysville's FY25 projected cost and actual cost were based on the following factors, which are supported in the subsequent detail pages:

	<u>Budget</u>	<u>Actual</u>	<u>Difference</u>
Shared operating expense	\$446,613	\$414,839	-\$31,774
Shared capital	\$156,179	\$161,840	+\$5,661
Percent of water used	14.5%	14.4%	-0.1%
Billing and customer accounting	\$13,594	\$14,965	+\$1,371
Daily operations of tank and booster station	\$8,747	\$8,734	-\$13

The total amount due from Keedysville to Boonsboro for the year is \$106,740, which is \$3,008 less than what was projected.

The Lead Service Line Inventory was a joint project undertaken by both towns. It was agreed that Keedysville would pay Boonsboro directly for its portion of the cost, rather than including it in the true-up, because the costs were based on a quote from The EADS Group instead of the typical percentage-based allocation of shared expenses. Keedysville's total cost for the project was \$7,770. Of that amount, \$6,000 has already been paid to Boonsboro, leaving an outstanding balance of \$1,770 owed to Boonsboro.

The most significant difference between the FY25 projected cost to Keedysville and the actual cost is that the shared operating expense was less than projected.

The final true-up result for FY25 is a payment from Boonsboro to Keedysville of \$1,238.
